Show Rider

Below is information Bryan would need to perform a show. Please keep to the following as best as you can when working with "The Comedy Magic of Bryan Gilles Show."

The Audience:

Appropriate for all ages, appealing to all ages. Bryan Gilles performs for young & old, college & high schools, strolling entertainment, corporate events, private parties, casinos, and cruise lines. Bryan's show goes over best with an audience of between 20 to 500 people.

Length of Show:

Usually 45-60 minutes, depending on the audience. (Adults can enjoy 60 minutes, kids can sit still for 40-50 minutes.) The show can be shortened to any length or broken up into two completely different 30 minute shows. Bryan Gilles has performed as little as 15 minutes as an opening act, and 90 minutes for an audience that didn't want him to end! Bryan also has a lot of fun strolling around and entertaining people.

Space Required:

Indoors - Ceiling height of 12 feet or more is required for a full show. Floor space or stage measuring 12 by 18 feet. A gymnasium is a good indoor location; high ceiling, good floor, and ample space. But the best is a stage or auditorium. (Generally speaking, the larger the space, the better the show, however, almost any space is workable.)

Sound System:

For most shows, Bryan has a portable microphone and music system. If you have a PA system already set up, Bryan can plug his remote system into it. Bryan's portable system can handle crowds from 5 to 500 people.

Lighting:

Bryan's show is best lit with professional stage lights. Lighting should present a general wash over the stage. If professional stage lights are not available, the stage should be placed in a bright area of the room or location. For large stage shows a follow spot and operator are needed.

Setup:

Bryan will need approximately 45- 60 minutes before the actual start time of a show to setup. And around 30 - 45 minutes to clean up. (Depending how far the show/stage is from his vehicle)
